

Roof primer

For priming of roofing felt

General

Roof primer is a thin liquid asphalt solution with moisture removing additives.

Range of application

The product is suitable for impregnating and priming of felt and concrete roofs. The product saturates dried felt prior to treatment with **Roofing Compound**. Also for pretreatment of surfaces to be damp proofed with **Cold Asphalt** or to be membrane insulated or to be totally covered with felt by gluing.

Instructions for use

Roof primer can be applied by spraying, brushing or with a roller. If necessary it can be diluted with white spirit.

Package

10500405 / 5-lit can

Technical data

Density: 890 + 20 kg/m³

Dry content: 55 + 2 %

Solvents: White spirit

Drying time: 2 – 3 h

Coverage: 0,3 – 0,5 liter/m²

Cleaning: White spirit

Drying Time: Approx 3-4 h (Surface dry at +20°C)

For further information we recommend the safety data sheet or instruction on package.
